

# Memorial Bench Donation Information

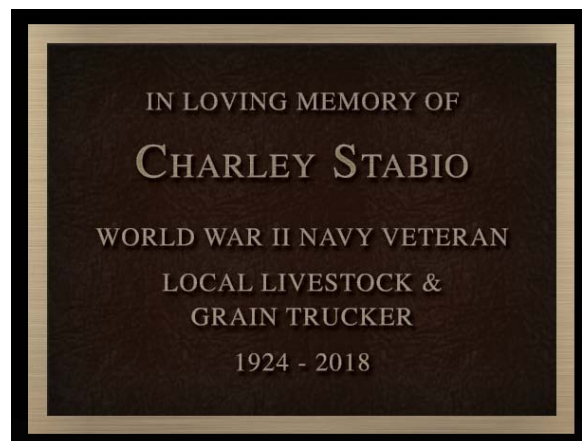

## Donating Benches

A bench is a way to enhance our community while honoring a special person, remembering a loved one or marking a special memory or occasion.

The donor, with guidance from the Powder River Trails committee, may select the locations. Donors provide the text for the plaque for inscription. Due to plaque size, 8" x 6", the text must be 25 characters or less.

## Style of bench

Benches are made by local welder, Garrett Harrington. They are 6 feet long. The benches are powder coated by Todd Bidwell of Tru Catch Traps in Belle Fourche to preserve the benches for a long time. Stevenson and Sons Funeral Home provides the plaque.
